

BCCC

Baltimore City Community College

CONSTRUCTION SUPERVISION, AAS

Associate of Applied Science

BCCC's Construction Supervision program prepares students to succeed as project superintendents and enter the construction workforce by providing construction management courses with career focus. The program bridges the mid level manpower in the industry and also prepares students to transfer their credits to four year colleges/universities.

This 60-credit program leads to a degree in Construction Management. The option to earn a Certificate in Construction Management with 30 credits is offered as an additional opportunity.
